Experience

TECHNICAL PRODUCT MANAGER, MOBIFY   NOV 2014 - MAY 2017

I was hired by Mobify to help build and launch a new product for their mobile shopping platform. Astro was released in 2015 and was rated as one of the most strategic eCommerce app frameworks by Forrester Research. I've also given numerous technical presentations on Astro. In 2016, my team worked with Google on new Web Payments technology.

PRODUCT MANAGER, MEDEO   OCT 2012 - NOV 2014

Medeo, short for "medical video", lets people see their doctor online. I was the first employee and helped see the company through its acquisition in 2014. Also, people love using Medeo.

Projects

BRAINSTATION, LEAD EDUCATOR   2016

I taught the Product Management course at BrainStation's Vancouver campus. I've also mentored many students outside of the classroom and helped them get their first jobs as Product Managers.

STACKER, OPEN SOURCE   2014

Stacker helps kickstart the development of iPhone apps. I released Stacker as my first big open source project and it later became the inspiration for my first product at Mobify.

WEBVIEWJAVASCRIPTBRIDGE, OPEN SOURCE   2014

WebViewJavascriptBridge is a popular open source project with over ten thousand "stars" on Github. I contributed significantly to the project back in 2014, making me the second largest contributor to date.

SKYPAY, CREATOR   2012

SkyPay is a web app that strives to be the simplest way to sell online. I built SkyPay to help other entrepreneurs make money selling their creations to their fans.

Education

University of British Columbia - Combined Major in Business & Computer Science, Graduated with Honours - 2012

Certificates

AWS Solutions Architect, Associate - 2018
Pragmatic Marketing Framework, PMC lvl 3 - 2015
